

Hole In My Heart

6/93 Key Bflat

Sometimes I feel that life is like a fire
with gallons of oil around
and just a cup of water maybe
it's just the way the universe plays its tricks,
it's time for change

Sometimes I do not see what's staring right at me
sometimes I can not hear the sounds right in my ear
maybe it's just the way the universe plays its tricks
could be time for change

All I know is there's a hole in my heart
so I've been turning from the light to the dark
wondering is this the way it is
we just go on hurtin'
hurtin' those of us we love
I'm thinking is this the way it is
we just go on hurtin'
hurtin' those of us we love

What I know is there's a hole in my heart
so I am holding out that we're apart
for just a phase through the changes
makes me sad to cause you pain maybe
maybe its fadin'
I don't know what to do
but just keep lovin' you
and hope the hole someday
will close in my heart
it's cold here with this hole in my heart
I do not know now what to do
but just keep lovin' you
Help me close, close the holes in our hearts
All I know is there's a hole in my heart
