

Homo Sapien

We call ourselves homo sapiens
we are conscious, we're aware
we can do anything, go anyplace
on land, sea, or in the air
But shit, so quick we're destroying our home
they say it's just a matter of time
so I ask you folks if we're so damm smart-
how'd we get in this bind?
Tell me please if we're so damm hip
why are we so blind?

We call ourselves homo sapien sapiens
Some would say we're homo sapien sapiens

We call ourselves homo sapiens
we think we are the center of creation as such
we can damm any river, we can tame any beast
what's it gonna to stop us
shit, so quick - - we're mauling this earth
they say it's just a matter of time
so I ask you folks if we're so damm smart
how'd we get in this bind?
Tell me please, if we're so damm hip
why are we so blind?

We call ourselves homo sapien sapiens
Some would say we're homo sapien sapiens
