

# How could we make that choice?

I know a guy working most his life  
trying to keep us all alive  
so that we don't wake some morning  
to hear the earth sobbing  
it's body on nuclear fire

He's got the soul of life  
captured on his rolls of celluloid  
cause it's a cold poison death road  
under the gods of nuclear war  
with the animals asking  
how could you make . . .  
how could you make that choice?
