

Phase to Phase

capo 5 or 6

Hey buddy, you mean a lot to me
why is it them words give us such difficulty
or is it just the way life goes
when you think you've found somebody
they are on another road
another road
They're on another road
another road

All the reasons that we got to keep us down
they are just illusions of touch, sight and sound
all the feelings that we hold inside locked away
it's no solution just to learn to play
to learn to play the game
gotta be a hundred better ways
as we go from phase to phase
phase to phase

Hey buddy do I mean a lot to you
why is it them words are so hard to come to
or is it just the way life runs
when you think you've found somebody
they're leaving as you come
they're leaving
leaving as you come
as you come

To get some love, we gotta give some
so when we're face to face we can say
we give some love and so we will receive some
as as we go from phase to phase
as we go from phase to phase
from phase to phase
phase to phase
