

We are We  
(You only You)

capo 4

You are you  
I am I  
we are we  
here to share this life  
with feeling

Time rolls by  
together we laugh and we cry  
these are the lives of you and me  
the earth and the sky

Through all the chords of my life  
I've been listening  
for you only you  
our love and spirit  
will guide us through

Repeat chorus

Mother, sing the harmony  
Father, help us let our love breathe  
Mother, won't you sing the harmony  
Father, help let our love breathe

Inst

Daylight is gone  
but I can still see the sun  
you only you are the one  
to share this star  
that we're on

Time rolls by  
together we laugh and we cry  
these are the lives of you and me  
the earth and the sky
